

GLOBESURFER ANTENNA

Magnetic mount antenna including 5m RG 174 cable terminated with MC connector suitable for direct connection to the Option Globesurfer II, Globesurfer III and Globesurfer III+ Routers.

Technical Data GSM / UMTS

- GSM 850/ 900: 824 - 960 MHz
- GSM 1800: 1710 - 1880 MHz
- GSM 1900: 1920 - 2170 MHz
- Peak Gain: 5.0 dBi
- VSWR: < 1.5
- Polarization: vertical
- Rod length: 290mm
- Impedance: 50 Ohm
- max. Power: 20 W
- Cable Length: 5m
- Cable: RG 174
- Connector[GSM]: MC

The Globesurfer Antenna is supplied pre-terminated with 5m long low loss cable and the correct antenna connector to plug directly into the Option Globesurfer external antenna port. This means that there is no longer a requirement to purchase the MC to SMA antenna adapter as well as purchasing the external antenna because the Globesurfer Antenna is now all-in-one for your convenience.

The Globesurfer Antenna can be used to improve the signal reception of the Option Globesurfer 3G Router in poor signal areas.
